

Delta Science Program presents Delta outflows workshop

The Delta Science Program will conduct a workshop February 10-11 in Sacramento to help the State Water Resources Control Board (SWRCB) with its review of the Water Quality Control Plan for the San Francisco/Sacramento-San Joaquin Delta Estuary (Bay-Delta Plan). The SWRCB is conducting a phased review and update of the 2006 Bay-Delta Plan, which identifies beneficial uses of water, water quality objectives for the reasonable protection of those beneficial uses, and a program to achieve the water quality objectives. More information is [here](#).

Governor's California Water Action Plan has been released

The Brown administration's final [California Water Action Plan](#) has been released by the California Natural Resources Agency, the California Environmental Protection Agency, and the California Department of Food and Agriculture. Details are available in this [news release](#). Action item 3, Achieve the Coequal Goals for the Delta, begins on page 10.

Conservancy, WEF hold Delta climate change workshop

The Delta Conservancy (Conservancy) and the Water Education Foundation (WEF) will sponsor a free workshop on February 13 in West Sacramento, titled "A Practical Workshop: The Science Behind Delta Climate Change Impacts." This one-day workshop features scientists from federal, State, and local agencies who will discuss the research on climate change and how it will affect the resources, agricultural enterprises, businesses, and residents in the Sacramento-San Joaquin Delta. Registration is required. More information is [here](#).
